Notice

While reasonable efforts have been made to assure the accuracy of this document, Telit assumes no liability resulting from any inaccuracies or omissions in this document, or from use of the information obtained herein. The information in this document has been carefully checked and is believed to be entirely reliable. However, no responsibility is assumed for inaccuracies or omissions. Telit reserves the right to make changes to any products described herein and reserves the right to revise this document and to make changes from time to time in content hereof with no obligation to notify any person of revisions or changes. Telit does not assume any liability arising out of the application or use of any product, software, or circuit described herein; neither does it convey license under its patent rights or the rights of others.

It is possible that this publication may contain references to, or information about Telit products (machines and programs), programming, or services that are not announced in your country. Such references or information must not be construed to mean that Telit intends to announce such Telit products, programming, or services in your country.

Copyrights

This instruction manual and the Telit products described in this instruction manual may be, include or describe copyrighted Telit material, such as computer programs stored in semiconductor memories or other media. Laws in the Italy and other countries preserve for Telit and its licensors certain exclusive rights for copyrighted material, including the exclusive right to copy, reproduce in any form, distribute and make derivative works of the copyrighted material. Accordingly, any copyrighted material of Telit and its licensors contained herein or in the Telit products described in this instruction manual may not be copied, reproduced, distributed, merged or modified in any manner without the express written permission of Telit. Furthermore, the purchase of Telit products shall not be deemed to grant either directly or by implication, 3 stoppels, or otherwise, any license under the copyrights, patents or patent applications of Telit, as arises by operation of law in the sale of a product.

Computer Software Copyrights

The Telit and 3rd Party supplied Software (SW) products described in this instruction manual may include copyrighted Telit and other 3rd Party supplied computer programs stored in semiconductor memories or other media. Laws in the Italy and other countries preserve for Telit and other 3rd Party supplied SW certain exclusive rights for copyrighted computer programs, including the exclusive right to copy or reproduce in any form the copyrighted computer program. Accordingly, any copyrighted Telit or other 3rd Party supplied SW computer programs contained in the Telit products described in this instruction manual may not be copied (reverse engineered) or reproduced in any manner without the express written permission of Telit or the 3rd Party SW supplier. Furthermore, the purchase of Telit products shall not be deemed to grant either directly or by implication, 3 stoppels, or otherwise, any license under the copyrights, patents or patent applications of Telit or other 3rd Party supplied SW, except for the normal non-exclusive, royalty free license to use that arises by operation of law in the sale of a product.

Usage and Disclosure Restrictions

License Agreements

The software described in this document is the property of Telit and its licensors. It is furnished by express license agreement only and may be used only in accordance with the terms of such an agreement.

Copyrighted Materials

Software and documentation are copyrighted materials. Making unauthorized copies is prohibited by law. No part of the software or documentation may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language or computer language, in any form or by any means, without prior written permission of Telit

High Risk Materials

Components, units, or third-party products used in the product described herein are NOT fault-tolerant and are NOT designed, manufactured, or intended for use as on-line control equipment in the following hazardous environments requiring fail-safe controls: the operation of Nuclear Facilities, Aircraft Navigation or Aircraft Communication Systems, Air Traffic Control, Life Support, or Weapons Systems (“High Risk Activities”). Telit and its supplier(s) specifically disclaim any expressed or implied warranty of fitness for such High Risk Activities.

Trademarks

TELIT and the Stylized T Logo are registered in Trademark Office. All other product or service names are the property of their respective owners.

1. Introduction

1.1. Scope

Scope of this document is to give an overview of the Telit LE920 series, which can support LTE, with data/voice capabilities, and GSM/GPRS/UMTS/HSPA+ as fallback technologies.

1.2. Audience

This document is intended for customers who are evaluating the LE920 series.

1.3. Contact Information, Support

For general contact, technical support, to report documentation errors and to order manuals, contact Telit Technical Support Center (TTSC) at:

TS-EMEA@telit.com
TS-NORTHAMERICA@telit.com
TS-LATINAMERICA@telit.com
TS-APAC@telit.com

Alternatively, use:

<http://www.telit.com/en/products/technical-support-center/contact.php>

For detailed information about where you can buy the Telit modules or for recommendations on accessories and components visit:

<http://www.telit.com>

To register for product news and announcements or for product questions contact Telit Technical Support Center (TTSC).

Our aim is to make this guide as helpful as possible. Keep us informed of your comments and suggestions for improvements.

Telit appreciates feedback from the users of our information.

1.4. Text Conventions

Danger – This information MUST be followed or catastrophic equipment failure or bodily injury may occur.

Caution or Warning – Alerts the user to important points about integrating the module, if these points are not followed, the module and end user equipment may fail or malfunction.

Tip or Information – Provides advice and suggestions that may be useful when integrating the module.

All dates are in ISO 8601 format, i.e. YYYY-MM-DD.

2. The LE920

2.1. Product Overview

The new Telit LE920 represents the next generation of Telit Automotive form factor xE920. The LE920 combines the two cutting edge technologies HSPA+ and LTE. In fact, LE920 combines a 3.5G wireless data module offering HSPA+ connectivity with download speeds up to 42 Mbps, and a 4G M2M module at the same time, providing an ultra high-speed downlink at 100 Mbps.

Designed for use in the most demanding automotive applications and manufactured according ISO TS16949, the LE920 offers ruggedized LGA packaging for its increased robustness and cost effective mating solution. Two LE920 regional versions are available, one for European, APAC and Latin American markets and one for the North American market. Both of them come with a multiband configuration, covering different sets of 3G and 4G bands. LE920 paired with its 3.5G companion HE920 offers an Automotive LGA family in a common package. Developers can take advantage of Telit's xE920 Unified Form Factor that enables a “design once, use anywhere” strategy. Design your application once and choose the technology that best fits the regional requirements for a truly seamless deployment. The LE920 is also fully backwards compatible to existing EDGE and GSM/GPRS networks through integrated quad-band radios. Additional features, such as integrated TCP/IP and UDP stack, DAC and ADC channels provide extended functionality, adding value to the final application with no additional costs. Moreover LE920 is also available with embedded GPS/GLONASS receiver and Antenna Diversity. The extensive interface set, which includes USB, UART and user definable GPIOs, provides ease of integration of peripherals and actuators.

NOTE:

Some of the performances of the Telit modules depend on S/W version installed on the module itself. The Telit modules S/W group is continuously working in order to add new features and improve the overall performances. The Telit modules are easily upgraded by the developer using the Telit Flash Programmer.

NOTE:

In order to meet the competitive OEM and vertical market stringent requirements, Telit supports its customers with a dedicated Support Policy with:

- Telit Evaluation Kit EVK2 to help you to develop your application;
 - A website with all updated information available;
 - An high level specialist technical support team to assist you in your development;
-

2.2. Target Market

The LE920 is designed and developed for the usage in most demanding automotive applications.

2.3. Product Variants

LE920-EUG	Radio Access Technology	Band	Frequency	DL / UL
	LTE FDD	1	2100	100/50 Mbps
		3	1800	
		7	2600	
		8	900	
		20	800	
	3G / HSPA+	1	2100	42/5.7 Mbps
		3	1800	
		8	900	
	GSM	2	1900	296/236.8 Kbps
		3	1800	
		5	850	
		8	900	

LE920-NAG	Radio Access Technology	Band	Frequency	DL / UL
	LTE FDD	1	2100	100/50 Mbps
		2	1900	
		4	1700/2100	
		5	850	
		17	700	
	3G / HSPA+	1	2100	42/5.7 Mbps
		2	1900	
		4	1700/2100	
		5	850	
		6	800	
	GSM	2	1900	236.8/118.4 Kbps
		3	1800	
		5	850	
		8	900	

2.4. Product Features

2.4.1. LE920 Common Product Features

- Supply voltage range: 3.3 – 4.2 V DC (3.8 V DC nominal)
- Control via AT commands according to 3GPP 27.005, 27.007 and Telit custom AT commands
- SIM Application Toolkit 3GPP TS 51.014
- SIM Access Profile
- IP stack with TCP and UDP protocol
- E-Call compliant
- Embedded GPS/Glonass
- Rx Diversity
- Dimensions: 34 x 40 x 2.8 mm
- Weight: 9 grams
- Extended temperature range
-40°C to +85°C (Extended operating range)
-40°C to +90°C (Storage temperature)
- RoHS compliant
- Manufactured under TS16949 Quality specifications

Interfaces

- 10 I/O ports
- Digital voice support
- Analog voice support
- 2 ADC
- 1 DAC
- USB 2.0 High Speed
- 2 UART

Audio

- Telephony
- Half rate, full rate, enhanced full rate and adaptive multi rate voice codecs (HR, FR, EFR, AMR, WB-AMR)
- Superior echo cancellation & noise reduction

- DTMF

SMS

- Point-to-point mobile originated and mobile terminated SMS
- Concatenated SMS supported
- SMS cell broadcast
- Text and PDU mode
- SMS over GPRS

GSM Supplementary Services

- Call forwarding
- Call barring
- Call waiting & call hold
- Advice of charge
- Calling line identification presentation (CLIP)
- Calling line identification restriction (CLIR)
- Unstructured supplementary services mobile originated data (USSD)
- Closed user group

2.4.2. LE920-EUG Product Features

- 3GPP protocol stack release 9 compliant
- Output power
 - Class 4 (2 W, 33 dBm) @ GSM 850 / 900
 - Class 1 (1 W, 30 dBm) @ GSM 1800 / 1900
 - Class E2 (0.5 W, 27 dBm) @ EDGE 850 / 900
 - Class E2 (0.4 W, 26 dBm) @ EDGE 1800 / 1900
 - Class 3 (0.25 W, 24 dBm) @ UMTS
 - Class 3 (0.2 W, 23 dBm) @ LTE

Data transmission

- LTE:
 - DL up to 100.0Mbps

- UL up to 50Mbps
- HSPA-DC:
 - DL up to 42.0Mbps
 - UL up to 5.76Mbps
- WCDMA: up to 384kbps downlink/uplink
- EDGE: DL up to 293 kbps, UL up to 236.8 kbps
- GPRS: DL up to 100 kbps, UL up to 80 kbps
- Asynchronous non-transparent CSD up to 9.6kbps

GPRS data

- EDGE Class 33
- Mobile station class B
- Coding scheme 1 to 4 (GPRS) & Modulation Coding scheme 1 to 9 (EDGE)
- PBCCH support
- GERAN Feature Package 1 support (NACC, Extended TBF)

Approvals

- Fully type approved conforming with R&TTE directive
- CE, GCF

2.4.3. LE920-NAG Product Features

- 3GPP protocol stack release 9 compliant
- Output power
 - Class 4 (2 W, 33 dBm) @ GSM 850 / 900
 - Class 1 (1 W, 30 dBm) @ GSM 1800 / 1900
 - Class E2 (0.5 W, 27 dBm) @ EDGE 850 / 900
 - Class E2 (0.4 W, 26 dBm) @ EDGE 1800 / 1900
 - Class 3 (0.25 W, 24 dBm) @ UMTS
 - Class 3 (0.2 W, 23 dBm) @ LTE

Data transmission

- LTE:
 - DL up to 100.0Mbps
 - UL up to 50Mbps

3. Product Description

3.1. Size and 2D mechanical drawing

The LE920 overall dimensions are:

- Length: 34 mm
- Width: 40 mm
- Thickness: 2.9 mm

*=or similar name, **=proprietary interface

3.11. Converters

3.11.1. ADC Converter

The LE920 has two on board ADC, which are 8-bit converters. It is able to read a voltage level in the range of 0÷2 volts applied on the ADC pin input, store and convert it into 8 bit word.

3.11.2. DAC Converter

The LE920 module provides a Digital to Analog Converter.

The on board DAC is in the range from 0 to 1023.

Note: an **external** low-pass filter is necessary. (Refer to the LE920 Hardware User Guide for more details).

3.12. Logic level specifications

Where not specifically stated, all the interface circuits work at 1.8V CMOS logic levels. To get more detailed information about the logic level specifications used in the LE920, please check with the Hardware User Guide.

3.13. Audio

3.13.1. Analog

The LE920 has in internal codec to provide an analog voice interface.

For more details, please refer to the LE920 Hardware User Guide.

3.13.2. Digital

The LE920 offers the digital voice interface. For more details, please refer to the Digital Voice Interface Application Note.

3.14. Other features

3.14.1. Speech CODEC

The LE920 supports the following voice codec:

- HR – Half Rate
- FR – Full Rate
- EFR – Enhanced Full Rate
- AMR-HR, AMR Half Rate
- AMR-FR, AMR Full Rate
- WB-AMR, Wide band AMR

3.14.2. SMS

The LE920 supports the following SMS types:

- Mobile Terminated (MT) class 0 – 3 with signaling of new incoming SMS, SIM full, SMS read
- Mobile Originated class 0 – 3 with writing, saving in SIM and sending
- Cell broadcast compatible with CB DRX with signaling of new incoming SMS.

The LE920 also supports SMS over GPRS

3.14.3. Phonebook

This function allows the storing of the telephone numbers in SIM memory. The capability depends on SIM version and its embedded memory.

3.14.4. Call status indication

The call status indication is supported.

3.15. Mounting the LE920 on your Board

The Telit LE920 module has been designed in order to be compliant with a standard lead-free SMT process. For detailed information about PCB pad design and conditions to use in SMT process please check with the LE920 Hardware User Guide.

3.16. Packing system

According to SMT process, for picking & placing movement requirements, LE920 family is packaged on trays.

The level of moisture sensibility of LE920 family is “3”, according with standard IPC/JEDEC J-STD-020, take care of all the relative requirements for using this kind of components. Special care for handling is highly required.

The European Community provides some Directives for all electronic equipment introduced in to the market. All relevant information is available on the European Community website:

<http://ec.europa.eu/enterprise/sectors/rte/documents/>

There the text of the Directive 99/05 regarding telecommunication equipment is available, whereas the applicable Directives for Low Voltage and EMC are available at:

<http://ec.europa.eu/enterprise/sectors/electrical/>
